

학부생 연구기회 프로그램 (UROP) 공고

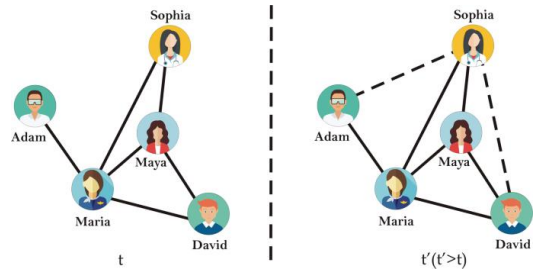

- ◆ 담당교수: 강유 (데이터 마이닝 연구실)
- ◆ 모집대상: 데이터 마이닝 및 기계 학습에 흥미 있는 3-4학년 학부생
- ◆ 모집기간: 2021년 12월 말까지

Time Series Classification

- Classify time series data
- Implement a state-of-the-art method
 - CNN for time series data
 - Learned by back-prop (PyTorch)
- Achieve a high classification accuracy

Wikipedia Clickstream Prediction

- Given a snapshot of a Wikipedia graph, predict possible links in the future
- Improve the state-of-the-art methods
 - Graph neural networks
 - Random walk-based models

Bundle Recommender Systems

- Given user-item interactions, recommend a bundle of multiple items to users
- Deep learning based approach
 - Attention mechanism

서울대학교 컴퓨터공학부
Seoul National University
Dept. of Computer Science and Engineering
