▶ FAQ

Q1) Can I request for quota exceeding course registration even if available credits for course registration is full? (For example, I can register up to 18 credits)

A1) Here is an equation for calculating credits for quota exceeding course registration.

Credits for quota exceeding course registration

= Available credits for course registration – Currently registered credits + 6 credits

In your case, you have 18 credits available for course registration and registered 18 credits, so you can request for quota exceeding course registration with 6 credits. You can request for quota exceeding course registration and get instructor's approval.

However, you can register total 18 credits for course registration. Therefore, you have to change or drop courses during course change period or course drop and adjust credits BEFORE you click 'Registration confirmation' in quota exceeding course registration menu.

Q2) Would it be possible to request a course for quota exceeding course registration, if this course overlaps other registered course?

A2) You can still request for quota exceeding course registration and get instructor's approval even if the course will be overlapped with registered course. However, you need to change or drop courses and make sure class time is empty before you click 'Registration Confirmation'. If not, you cannot confirm registration if there are any courses overlapping requested course.

Q3) Would it be possible to request a course for quota exceeding course registration, if this course is same type of course according to Alternatives in Course Details of CRS?

A3) You can request for quota exceeding course registration and get instructor's approval even if the course is same type of course in Alternatives of Course details. However, you need to change or delete one course before you click 'Registration Confirmation'. If not, you cannot confirm registration if same type of course is already registered.

Q4) Can I request for quota exceeding course registration with same course number and different lecture numbers? (For example, 033.019 (001) & (002))

A4) You can request for quota exceeding course registration with same course number and different lecture numbers. However, you can confirm registration for only 1 request because these courses have same course number.

Q5) Can I request for quota exceeding course registration if the request is rejected or I have cancelled the request before instructor's approval?

A5) Yes, you can request for quota exceeding course registration, if the request is rejected or if you have cancelled the request.

Q6) I didn't confirm registration in CRS Quota exceeding course registration menu.

My instructor approved my registration request. Is there any way I could take this course?

A6) Although you have instructor's approval, if you don't confirm registration during given

period, the course will not be registered.
